A: After investigating the source of some files, I did not find the name of the file generated by ActiveX per se, it was only possible to find the name of the .exe file: TGE\_2011-12-22-15-32-07\_8821.exe The exception string was extracted using this information: ClassLibrary2.dll!System.Security.SecurityException: Unable to find the file TGE\_2011-12-22-15-32-07\_8821.exe.
